FACULTY WORKLOAD ASSIGNMENT RECORD

College of Technology Education (COTE) • Academic Year 2026–2027 • 1st Semester

IMPORTANT: This document is generated for CITEFLOW PDF-import testing. Faculty names, departments, faculty IDs and employee IDs were taken from the Supabase records you supplied. All subject assignments, schedules, rooms, units/hours and student counts below are synthetic sample data and must not be treated as actual teaching loads.

SUBJECT ASSIGNMENT DETAILS

Each row represents one faculty-to-section subject assignment. A faculty member may therefore appear on multiple rows. Faculty ID and Employee ID are included as matching references to help distinguish records with similar names.

IMPORT FIELD NOTES

Tracker summary fields	Preparations, total Units, total Hours/Week, Sections and Students should be calculated or summarized from the assignment rows. The Actions column is a CITEFLOW interface control (for viewing details), not an imported data field.
Counting guidance	Repeated subject codes in different sections remain separate assignment rows. Preparation-counting rules should be confirmed against COTE workload policy before production use.
